

MAT – 112: Calculus I and Modeling

EFY 5

Instructor: Thomas R. Cameron

Due: March 2, 2018

Instructions

Please write a lively and succinct development of the derivatives of $\sin x$, $\cos x$, and $\tan x$. Your development should follow what we did in class on February 23, 2018. You should work independently and turn in your own writeup, but you may receive help from your peers or myself.
